

UNITRADE SHANGHAI CO.,LTD

LED Wall Light

Data Sheet

WL1086

Product Information

LED Wall Light is fashion design product, and it's high CRI which can reach above 80Ra safe lamps with constant current output drivers, over-voltage and over-current protected.

Electrical and Photometric Characteristics

Nominal Voltage:	AC200-265V
Operating frequency:	50/60Hz
Power factor:	≥ 0.6
Working temperature range:	-20°C ...+35°C
Starting time:	< 0,5 s
Switching cycles:	40000 times
Dimmable:	No
SDCM:	6 steps
IP Rating:	IP20

Specification Features

Long-life and high efficiency

- * Up to 40,000 hrs rated lifetime, reduced maintenance cost
- * High Efficiency, up to 75lm/w delivered at 3000K-6000K

High Quality lighting effect

- * Compliant to photo biological safety standard
 - * Especially suitable for Market/Garage/Workshop.
 - * Environment friendly - no UV, no Hg
-

Product Details

Item No.	WL1086 - square
Power	3+8W
Dimension	140*140*62mm
LED Chip	Bridgelux led chip
IP Rating	IP20
CCT	3000k/4000k/6000k
Material	Aluminum
Color	Sandy white, Sandy black
Install	Surface mounted
Flicker	No-flicker
Packing Size	78*28*32 cm, 30pcs/ctn, 20kg/ctn
